# Angular 17 New Syntaxes

# *ngIf Directive Old Syntax

```html
<section>
    <ng-container *ngIf="user.loggedIn; else adminSection">
        <app-dashboard></app-dashboard>
    </ng-container>
    <ng-template #adminSection>
        <ng-container *ngIf="user.role === 'admin'; else loginSection">
            <app-dashboard></app-dashboard>
            <app-admin-controls></app-admin-controls>
        </ng-container>
        <ng-template #loginSection>
            <app-login></app-login>
        </ng-template>
    </ng-template>
</section>
